

Comprehensive Training Solutions When Lives Are On The Line

FOR IMMEDIATE RELEASE

Preview Judgment Simulation Training That is Easily Integrated with Live Fire or Driving Simulation Training at IACP

AIS Combines Training Technologies to Optimize Police Training Effectiveness (Booth #1331)

SEATTLE – September 20, 2005 – Advanced Interactive Systems will provide a preview of judgment simulation training integrated with live fire or driving simulator training at booth #1331 at the International Chiefs of Police (ICP) Show September 25-27 in Miami, Florida.

The unique compilation of simulation technologies available for viewing at booth 1331 include:

- Judgment Simulation Training Solutions
 - Featuring the new PRISim™ PortableTrainerPRO™, part of the new PRISim product family
- Live fire shooting ranges combined with simulation training
 - Featuring the QuickRange™ modular, live fire range solutions
- Driving simulators combined with judgment simulation
 - Featuring the L-3 PatrolSim™ driving simulator with the AIS PRISim judgment simulator
- Firearm recoil simulation
 - Featuring the AirMunition™ recoil round line of products

“Law enforcement personnel worldwide have embraced simulation as a viable and cost-effective means to train their personnel. The challenge has been to find simulation solutions that most effectively mirror the wide range of day-to-day situations faced by our men and women in blue,” states Ron Enneking, Executive Vice President for the AIS North American Division, “The technologies we’re showing at IACP this year are able to provide that powerful interface for effective judgment training.”

About AIS

Advanced Interactive Systems, Inc., (www.ais-sim.com) provides comprehensive training solutions for people in positions where lives are on the line. AIS manufactures PRISim™ training simulators for lethal and less-lethal weapons handling and judgment skills. The AIS Ltd. group designs and builds anti-terrorist and other special application training facilities, with installations in more than 60 countries. The Reality Response Division manufactures interactive simulation systems and synthetic environments that provide reality-based training for CBNRE (Chemical, biological, nuclear, radiological, explosive) hazard response tasks. Headquartered in Seattle, AIS is a privately owned company with offices in Washington D.C.; McLean, Virginia; Monterey, California; Orlando, Florida; Abu Dhabi, UAE; Singapore, Malaysia; and Farnham, England.
