

*Realistic, Relevant and Reliable*

# Course Objective

The objective of the three day training course is to give you the knowledge to create your own interactive video for PRISim. When the course is complete, you will have the fundamental skills and a clear understanding of how to create your own customized training.

# Customer Pre-Training Tasks

Before the instructor arrives on Day 1 the tasks below must be completed. The instructor will be in contact with you to support you in completing these pre-training tasks.

## **Formulate three scenario ideas to be filmed during the course:**

For each scenario idea:

- Determining the training points for each scenario
- Choose a filming location based on the training objective
- Identify and schedule the actors needed for the scenario
- A minimum of two actors per scenario is recommended.
- Coordinate any props required for the scenario (Weapons, vehicles etc.)

## **Video Equipment:**

Confirm with the instructor that you have the necessary video equipment required to successfully complete the course.

# Training - Day 1

## **Morning**

### **Production Equipment – Reviewing and Learning the tools**

- Camcorder operation
- Working with weapons
- Shooting primary scenes
- Shooting branching scenes

*Realistic, Relevant and Reliable*

## **Day 1 – Morning (Continued)**

### **Production – Film a basic scenario on location**

As a student, you will film a scenario under the supervision of the instructor. The scenario will have one lethal and one instructor-override branch with a comply outcome. The goal is to end the day having filmed and authored one scenario that is customized to your training needs.

### **Afternoon**

### **Post-Production – Authoring a basic scenario for PRISim®**

You will observe the instructor as they create the scenario shot earlier in the day. They will capture the raw video on to the computer, edit the video, export a final media file and create the final scenario using the PRISim® Editor Wizard. By the end of the day you will have a good understanding of the complete creation process.

### **Finishing the day**

Review and answer any questions about the days training.

# **Training - Day 2**

## **Morning and Afternoon**

### **Production – Film a basic scenario on location**

As a student, you will film and author a scenario under the supervision of the instructor. The scenario will have one lethal, one non-lethal and one instructor-override branch with a comply outcome. The goal is to end the day having filmed and authored one scenario that is customized to your training needs.

### **Post-Production – Authoring a scenario for PRISim®**

#### **Editing Video**

- Capturing raw video for editing
- Editing video and adding special effects
- Exporting final media files

#### **Editing Scenarios**

##### **Basic Scenario Editing**

- Building scenarios using the PRISim® Editor Wizard

### **Finishing the day**

# Training - Day 3

## Morning and Afternoon

### **Production – Film a basic to advanced scenario on location**

As a student, you will film and author a basic to advanced scenario under the supervision of the instructor. The scenario will have one lethal, one non-lethal, one instructor-override branch with a comply outcome and one instructor-override branch with a lethal outcome. The goal is to end the day having filmed and authored one scenario that is customized to your training needs.

### **Post-Production – Authoring a basic to advanced scenario for PRISim®**

#### Editing Video

- Capturing raw video for editing
- Editing video and adding special effects
- Exporting final media files

#### Editing Scenarios

##### Basic and Advanced Scenario Editing

- Building scenarios using the PRISim® Editor

#### Finishing the day
